

Vivi Evaluation Guide

Vivi now seamlessly integrates with Newline interactive flat panels.

Vivi is the only wireless screen mirroring and digital signage solution designed specifically for education. Vivi offers a rich set of educational features which enable better student engagement.

Now you can install the Vivi receiver app directly onto your Newline Interactive panel with no need for additional hardware.

Get Vivi up and running on your Newline display in minutes.

1

Find the Vivi App on your Newline panel

From the home screen on your Newline panel, enter the app store. Find the Vivi app by selecting Search, choosing Vivi App, then tapping done.

2

Install the Vivi App

Once you have found the Vivi app, select it, then tap on the FREE DOWNLOAD button. Allow the installation to complete.

3

Open the Vivi App

Enter the Apps menu and select Vivi Receiver from your list of installed apps. Once loaded, scan the QR code to activate Vivi on your panel.

4

Begin your free trial of Vivi

On the website you are taken to you will be asked to select if you are a new or existing Vivi customer. If an existing customer, you will be able to activate using the Vivi app. If a new customer, you will need to fill in a simple form to activate.

5

Check your email

If a new customer, after you have filled in the form, you will receive an email with further instructions. Follow these instructions to begin using the Vivi app on your Newline panel.

6

Enjoy your free trial

Your free trial will last for two weeks. We will be in touch to arrange a full trial of all Vivi's features during this time.

If you need any help feel free to contact Vivi: sales@vivi.io
