

Vivi App Features

PLAY CONTENT

Click here to share content, including videos, on the display. Enter a URL or select the content from your device. You can queue up multiple videos or other types of content to play consecutively and save as a playlist to access later.

SHARE SCREEN

This enables you to share your screen with the display connected to your Vivi device. If you use an Apple device you may need to engage Screen Mirroring / Airplay. Hold down a moment to view options for split screen sharing.

SCREENSHOT

Take a screenshot of the screen being presented. The screenshot will be saved to your individual device. You can also annotate directly on the screenshot using Annotation.

MESSAGE CLASS

Quickly and easily send messages, including URLs, to everyone connected to the room.

WHITEBOARD

Annotate over a virtual whiteboard. You can also load a background image to annotate over.

GUEST ACCESS

If you have a guest presenter, create a code for them to access the screen without the need for them to login.

SETTINGS

Stream Settings

Adjust the way Vivi streams to your classroom display.

Room Settings

Activate room features like Open Access to give everyone in the class presentation privileges.

Preferences

Adjust the way Vivi works on your computer.

GIVE STUDENT CONTROL

See which students are connected to the room and which have requested control. To grant access, simply click the student's name. You will have the option to preview what's on a student's device if they have requested control.

CLOCKS AND TIMERS

Display a clock, timer or stopwatch on the classroom display.

WELLNESS

Access the content available through Vivi's partnership with Headspace to play meditations and breathing exercises directly from the Vivi app.

ASSESSMENT

Create a multiple choice (numerical or alphabetical), Yes/No or True/False poll.

POLLS

Monitor student wellbeing through emoji response polls with questions such as, "How do you feel today?" and "How do you feel about the lesson?"
