

Reach who you want, when you need, where they are.

All the tools you need to create, manage, and distribute your on-campus communications, while maximising the value you get from your existing displays.

We help schools with:

Digital Signage

Always-on signage keeps students and staff informed and engaged using your existing displays.

Emergency Alerts

Clear, actionable visual alerts that integrate with your existing safety solutions.

Video Announcements

Live video streamed directly to classroom and public area displays increase community connectedness.

Text Announcements

In-the-moment text announcements meet routine communication needs without disruption.

Key Features:

Role-based permissions put content in the hands of the right people.

Destination groups enable targeted or school-wide delivery.

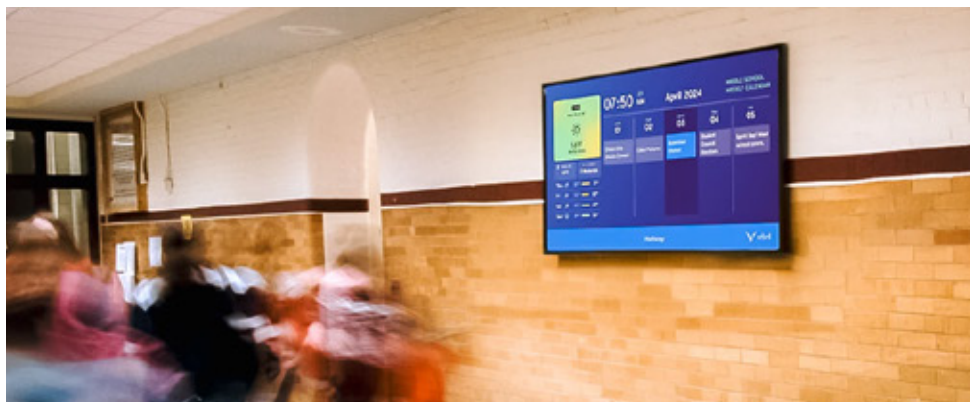

Visual elements, mixed media, and multi-zone layouts add impact.

API enables integration with existing emergency management systems.

Why choose Vivi?

93%

of VIVI Customers say VIVI has helped achieve better community management at their school.

92%

of VIVI Customers say VIVI has increased student engagement.

90%

of VIVI Customers say VIVI has helped create a positive school community.

“By delegating signage controls, we've got other people putting their input in, changing the content, bringing it to life and celebrating not only their subject, but also celebrating the students.”

Chris Beavis
IT Technician
Alameda Middle School
