

Enable your teachers and engage your students.

Untether your teachers from the front of the classroom while keeping them in control with reliable, easy-to-use wireless screen mirroring.

Teachers can:

Share content from anywhere in the room.

Gather immediate feedback on student understanding.

Facilitate student-centered learning and active engagement.

Play videos or other content, while keeping their device free for other work.

Students can:

Present from the safety and security of their desks.

Collaborate with classmates by sharing work simultaneously to a single display.

Screenshot shared content to annotate and save for later reference.

Let their teachers know, discretely, **how they are feeling**.

Technology teams can:

Trust that Vivi screen mirroring works with any device and operating system.

Centrally manage their Vivi deployment for faster installation and easier ongoing management.

Extend the life of their existing classroom displays.

Provide a standard experience in every classroom, regardless of display type.
