

PREPARE FOR MARTYN'S LAW

In an emergency, no one misses the message.
Every screen responds.

Full-screen, acknowledgment-required alerts delivered instantly to every staff computer. **Because when every second counts, every screen counts.**

Instant Visibility

Full-screen alerts appear on every staff desktop and laptop. They're impossible to miss, even when displays aren't nearby.

Built-in Accountability

Every alert requires acknowledgement. See exactly who saw it, when they responded, and who still needs to.

Easy Deployment

Add Device Alerts to your existing Vivi setup with no new hardware and simple SSO provisioning.

Site-wide Communication

Now your alerts reach every corner of your school — classrooms, offices, labs, and common areas.

Preparing for Martyn's Law: The next step in schoolwide safety

Vivi is already trusted by schools and MATs across the UK to keep classrooms connected and informed through Vivi Emergency Alerts. Available as an optional add-on, that same reliability now extends to every staff computer on your network, ensuring everyone sees important messages, wherever they are.

It's everything schools love about Vivi Emergency Alerts, now extended to every screen.

Vivi Device Alerts make it possible to:

- ✓ Reach every staff member instantly; no matter where they are.
- ✓ Strengthen your school's emergency response and prepare for Martyn's Law.
- ✓ Simplify IT setup with seamless integration into Vivi Central and EntrySign.

Protect your schools.

Make safety impossible to miss.
