

SAFER SCHOOLS — STRONGER — COMMUNICATION

Vivi's emergency notification system sends visual alerts quickly and reliably to any connected display and staff computer, to ensure that no one misses the message.

Strengthen emergency preparedness as part of **Martyn's Law**

Trigger different visual and instant emergency alerts based on the scenario and provide context so students and staff know how to respond appropriately.

✓ Evacuation

✓ Invacuation

✓ Lockdown

Why choose Vivi?

Instant Emergency Alerts

Reach every student and staff member in seconds.

Whole-school or targeted messaging

Target the right people, at the right time, keep everyone informed.

Clear visual instructions

Provide clear visuals so staff and students know what to do.

NEW

Device Alerts

Available as an optional add-on, Device Alerts reach every staff desktop or laptop schoolwide with instant, full-screen, acknowledgement-required alerts, even if they're not connected to a Vivi box. **Make safety impossible to miss.**

vivi

ENTRYSIGN

Seamless Integration with EntrySign

Vivi integrates directly with EntrySign's visitor management solution, allowing schools to trigger alerts straight from reception, automatically log all visitors during emergencies, and ensure that staff, students, and visitors alike receive clear instructions instantly.

"For lockdown purposes, it's been a life changer for us, especially with all the new laws coming in like Martyn's Law."

Connor Elliott, Head of IT, Fulwood Academy (Preston)
