

You've Been Tempted by Apple Before. Go On... Take a Bite!

**With Vivi, Apple
TVs Now Work
with Any Device.**

Have you looked at Apple TVs but then hesitated? They are a powerful classroom display option, but until now, they've been limited to Apple-only devices.

Not anymore.

Vivi for Apple TV allows schools to integrate Apple TVs into any environment — supporting Chromebooks, Windows, Macs, iPads, and more! Now, schools that never considered Apple TVs can take advantage of them without being locked into a single ecosystem.

**Make the smartest classroom
tech investment today!**

Device-Agnostic, Seamless Screen Sharing

Teachers and students can share from any device.

Enhanced Classroom Collaboration

Share up to four screens at once to encourage participation.

Schoolwide Communications

Display school news, schedules, and emergency alerts on any connected Apple TV.

Cost-Effective & Easy Deployment

Apple TVs now can work with everything!

Why Apple TVs + Vivi Are the Smartest Choice for Schools

Vivi is built for IT teams, educators, and administrators looking for an affordable, flexible, future-ready classroom solution. With Vivi for Apple TV, you can:

Make Apple TVs Work in Any Environment

No more Apple-only limitations – connect all your devices.

Save Budget While Upgrading Tech

Apple TVs are affordable and now more functional than ever.

Streamline IT Management

Deploy and manage everything centrally through your MDM.

Eliminate Cables & Connection Hassles

No more wasted time switching inputs or troubleshooting connections.

How It Works

- 1 Install the Vivi app on your Apple TV
- 2 Deploy through MDM or install manually
- 3 Start sharing, collaborating, and displaying content instantly!

Get more from your classroom technology investment.
