savings through the reduction
of IT support tickets.

Your Vivi Solution

Vivi User App

The interface used by teachers, students, and administrators

Vivi Display

The backend operating system on which Vivi runs

Vivi Central

Where IT administrators manage all things Vivi

Purpose-built for education means:

- Teachers remain in control, even when students are sharing their screens.
- Student engagement tools are built in, not added on.
- Vivi works with interactive flat panels, projectors, and TVs.
- Vivi is device and operating system agnostic.

Get started at vivi.io

Wireless Screen Mirroring

Free your teachers from the front of the class with reliable screen mirroring that works with all displays and devices.

Digital Signage

Keep everyone informed and engaged with signage delivered across common areas and classrooms.

Emergency Alerts

Put visual alerts on every connected display in seconds. Integrates via API with your existing systems.

Announcements

Deliver timely communications with minimal disruption, using live video or text to every classroom or just a handful.
